

HTML/CSS Project

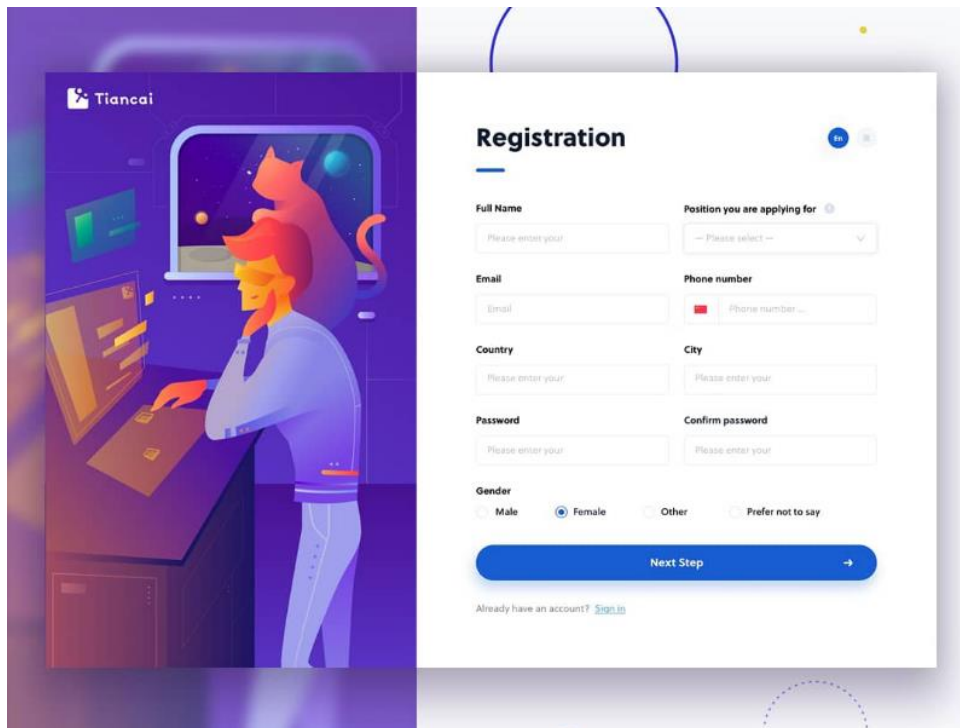

We want to create a webpage that will contain the following –

1. Top Navbar with a small logo at top left and two buttons (Register & Login) at top right.
2. Side Navbar that will contain a profile icon and on hover it should expand the sidenav to display both icon as well as text “Profile”.
3. The home page will be a login page that will contain a form asking email and password.
4. Clicking on Register on topnav it should redirect to another page having a form asking details to register to the site.
5. On navigating to the profile page, you should see 2 tables containing information of the books along with the author. The two tables should contain the list of all the books available and the books you wish to read.

Note:

- a. Registration and login functionality will be possible only after JavaScript, so just design a static page having the form.
- b. On the profile page clicking on a book on either of the 2 tables will transfer the book to another table. This functionality is also possible after JavaScript and you should show only static page.

Registration Page

The registration page features a dark, futuristic illustration on the left showing a person with orange hair at a desk with multiple monitors. The main form is titled "Registration" and includes fields for Full Name, Position, Email, Phone number, Country, City, Password, and Confirm password. It also has gender selection options (Male, Female, Other, Prefer not to say) and a "Next Step" button. A link for "Already have an account?" is provided at the bottom.

Registration

Full Name

Position you are applying for

Email

Phone number

Country

City

Password

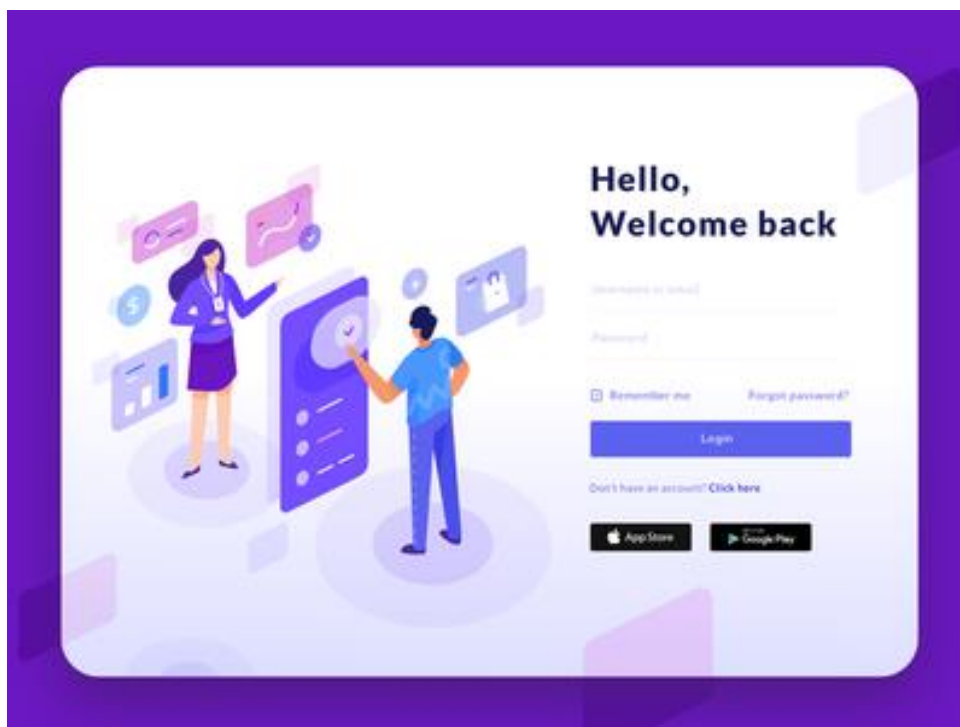

Confirm password

Gender
☐ Male ☒ Female ☐ Other ☐ Prefer not to say

[Next Step](#)

Already have an account? [Sign in](#)

Login Page

The login page features a vibrant illustration on the left showing two people interacting with large digital screens. The main form is titled "Hello, Welcome back" and includes fields for Username or Email and Password. It also has a "Remember me" checkbox, a "Forgot password?" link, and a "Login" button. A link for "Don't have an account?" is provided below the login button. At the bottom, there are buttons for "App Store" and "Google Play".

Hello, Welcome back
